

Fantastic News...

Magical Maths is running virtually (and YOUR child's invited!)

The current lockdown has meant many changes to your normal routines. That's why I'm glad to bring you truly awesome news. We've adapted our activities, so that our [fun maths sessions](#) can be delivered online. Children have loved the session that've run so far, and the positive feedback's been flying in:

"That was awesome! Callum loved it!! He asked if we get to do it every day! I loved it too, so fun. He can't wait to Facetime his Grandma and show her his new trick."

Kim Ferrari, Mum to Callum (aged 6), Leicestershire

"Toby loved that! First thing he said was 'is it on tomorrow??' Thanks so much! **Good for him to learn more skills so he can keep practicing his maths!"**

Lauren Williams Mum of Toby (age 9) *Manchester.*

"I think the magical maths virtual classes are brilliant - **Finley really enjoyed it and has been 'mind reading' with his family over FaceTime! Hopefully there are more Zoom classes that he can participate in."**

Finley's mum, *Nottinghamshire.*

We're utilising the Zoom platform (a free and easy to download app) to beam awesome, mega-fun teaching direct to your living rooms. We are proud of the fact that [these online sessions](#) are so engaging, exciting and helping children keep socially connected during isolation.

The sessions are designed to be fun and interactive so the children engage like a play session, but it has the added benefit of boosting children's confidence with a better foundation in maths. In general they continue the learning whilst at home, practising their numbers without realising they're doing so!

Dates and Times

Each of the 3 sessions runs for one hour starting **Monday 8th June**. You can select a day and your booking will be repeated for that day and time for the following 2 sessions (E.g. book a Weds starting Weds 10th June at 9.15am, the other two sessions will follow on Weds 13th and 17th June at 9.15am).

For more info and to sign up please click the link below
[Book My Virtual Club](#)

Or book via phone, just call
0121 392 7475

Introductory price of £13.49 for 3 sessions (that's less than £4.55 per session!). Limited places - sign up quick!
Tell your family and friends to join the same session 😊

Your mathemagically,

Anita Patel.

P.S We'll be using ZOOM (which is free to download – we'll provide a link and passcode..)

P.P.S – Here's the link again so you can act now before we're full!
